WORK EXPERIENCE

Summer Intern at INET Thailand

2022

- INET is one of the leading Thai ICT service providers
- Introduced to fundamental computing concepts like flowcharts and mathematical logic
- Exposed to and practised using programming tools eg. Flask, Figma, Postman and Docker

Spring Week into Software Engineering at JPMorgan Chase Glasgow

2025

- Attended networking sessions, and workshops about essential programming concepts and tools
- Participated in the Code for Good hackathon. Used ReactJS, LLM APIs, Flask and MySQL
- Converted to a 2026 summer analyst in the Software Engineering Programme

Private tutoring

2022 - 2024

- Tutoring high schoolers online. IB and pre-IB subjects, mainly maths, physics, english lang lit
- Around 1-2 times weekly for 1-2 hours depending on student availability

Summer Data Science Intern at PTTEP Thailand

2025

- Developed a multi-agent chatbot to streamline procurement and contract assessment workflows using Google ADK, BigQuery, Vertex AI, GCP, MCP, etc
- Pitched project to executives and handed over development to team

Incoming Summer Software Engineering Analyst at JPMorgan Chase Glasgow

2026

EDUCATION

University of St Andrews - BSc, Computer Science and Philosophy

Enrolled 2023, expected graduation in 2027

St Andrews, Scotland

- Dean's list - First and second year

KIS International School - IB PYP, MYP and DP

2015 - 2023

Bangkok, Thailand

AWARDS

High School Valedictorian

2023

KIS International School

- Awarded to the graduate with the highest GPA

IB DP Full Academic Scholarship

2021

KIS International School

- Granted to the student that demonstrated the most success in academic and extracurricular activities.
- Full scholarship for the International Baccalaureate Diploma Program - Last two years of high school

First Place at BCGeTEC Green Business Idea Challenge

2021

- Business idea pitching competition for sustainable packaging
- Designed and pitched a prototype made using mushroom mycelium grown in rice husk
- Hosted by the Faculty of Engineering at Thailand's top university Chulalongkorn

PROJECTS

Neural Network from Scratch

2025

- Built neural network from scratch with NumPy and linear algebra for Korean character recognition
- Gave a workshop for StA FinTech Society exploring low level math intuition of neural networks

Modelling the Period of Dripping Coffee with Short-Time Fourier Transforms

2023

- Inspired by period doubling bifurcation in dripping faucets to investigate the change in the period of dripping coffee over time
- Designed an experiment to collect weight-time data of the total water dripped
- Denoised and analysed data using time series decomposition and short-time Fourier Transforms using SciPy

Designed and Built an Electric Guitar

2021

- Modelled the guitar body and components in Fusion360
- Used CNC routing, 3D printing, soldering and woodworking techniques

EXTRACURRICULAR ACTIVITIES

St Andrews FinTech Society

2024 - Present

- Aforementioned neural network workshop
- AI division member

University of St Andrews Thai Society

2024 - Present

- President 2024 - 2025
- Vice President 2025 - 2026

Competitive Volleyball

2020 - Present

- Captain of the varsity volleyball team at KIS - Second place in AISAA sports league
- Men's second team for the University of St Andrews

Guitar and Singing

2020 - Present

- Guitarist and singer for a band in St Andrews performing at bar events
- Won second place at a school wide talent show for a band performance

CERTIFICATIONS

JPMorgan Chase Software Engineering Forage Job Simulation

April 2025

- Learned Java Spring Boot, Maven and Kafka

Innovate with Design Thinking Program

August 2021

- Issued upon completing a summer course by SEAC Thailand with Stanford Online

ADDITIONAL

Languages

- Fluent: English, Thai. Conversational (IB ab initio) Mandarin

Programming Languages/Frameworks

- Java, Python, Google GCP/ADK, JS, Node, HTML, CSS, Bash, SQL, MongoDB, C
